

Taylor County has an elevated risk profile. Iron is the primary concern, driven by geological sources. Contamination is often invisible — testing is the only way to confirm your well's safety.

RISK LEVEL

YOUR TOP WATER QUALITY RISKS

CONTAMINANT	HOW COMMON	RISK LEVEL	SOURCE & CONTEXT
Iron*	~56% above aesthetic limit	Moderate	Geological — Common in glacial and alluvial aquifers; staining and taste
PFOS	~33% above limit	High	Industrial — Firefighting foam and industrial discharge
Manganese*	~28% above aesthetic limit	Moderate	Geological — Found in reducing aquifer zones alongside iron
Lead	~0.6% above limit	Low–Moderate	Infrastructure — Older well casing materials and household plumbing
Sulfate*	~0.5% above aesthetic limit	Low–Moderate	Geological — Natural dissolution from gypsum and sulfate minerals

* Secondary standard — an aesthetic limit for taste, odor, or staining. Not a health-based EPA limit.

WHAT TO DO NEXT

1 Order a water test.

Test for Iron, PFOS, Manganese, Lead, coliform bacteria. Bacteria annually; others every 3–5 years.

2 Get your free county report.

See full data, treatment options, and certified labs at <https://yourwaterreport.com/states/fl/taylor-county/>

3 Upload your lab results.

We'll interpret them, flag anything above limits, and recommend next steps — free.

Well driller / service contact

WHAT YOUR RESULTS MEAN

Use this to interpret your lab report — match the contaminant to your result.

IF YOUR TEST SHOWS	WHAT IT MEANS	CONSIDER
Bacteria detected	Immediate concern	Shock chlorination; add UV system
Iron > 0.3 mg/L	Staining, taste — aesthetic issue	Oxidizing iron filter
PFOS detected	Health advisory level	Reverse osmosis filter
Manganese > 0.05 mg/L	Aesthetic + health concern at high levels	Oxidation + filtration system
Lead > 15 µg/L	EPA action level exceeded	RO filter; inspect well casing

WHO SHOULD USE THIS

- Homeowners on private wells — not covered by public water testing
- Home buyers doing due diligence before closing
- Families with infants, elderly, or immunocompromised members
- Anyone who hasn't tested their well in the past 3 years
