

Haywood County has a moderate risk profile. Arsenic exceeds recommended limits in approximately 29% of tested wells, driven by geological sources. Contamination is often invisible — testing is the only way to confirm your well's safety.

**MODERATE**  
OVERALL  
RISK LEVEL

**YOUR TOP WATER QUALITY RISKS**

CONTAMINANT	HOW COMMON	RISK LEVEL	SOURCE & CONTEXT
<b>Arsenic</b>	~29% above limit	<b>High</b>	<b>Geological</b> — Naturally dissolves from bedrock and glacial sediment
<b>Chloride*</b>	~98% of wells	<b>Low-Moderate</b>	<b>Road/Geological</b> — Road salt application and natural mineral deposits
<b>Sulfate*</b>	~96% of wells	<b>Low-Moderate</b>	<b>Geological</b> — Natural dissolution from gypsum and sulfate minerals
<b>Ph*</b>	~100% of wells	<b>Low-Moderate</b>	<b>Geological</b> — Aquifer mineral chemistry; low pH accelerates pipe corrosion
<b>Sodium†</b>	~99% of wells	<b>Advisory</b>	

\* Secondary standard — an aesthetic limit for taste, odor, or staining. Not a health-based EPA limit.

† No finalized EPA primary MCL. Figure shows detection frequency, not regulatory exceedance.

**WHAT TO DO NEXT**

- Order a water test.**  
Test for Arsenic, Chloride, Sulfate, Ph, coliform bacteria. Bacteria annually; others every 3–5 years.
- Get your free county report.**  
See full data, treatment options, and certified labs at <https://yourwaterreport.com/states/nc/haywood-county/>
- Upload your lab results.**  
We'll interpret them, flag anything above limits, and recommend next steps — free.

**KNOW YOUR WELL**

Well age / year drilled \_\_\_\_\_

Last water test date \_\_\_\_\_

Treatment systems installed \_\_\_\_\_

Well driller / service contact \_\_\_\_\_

**WHAT YOUR RESULTS MEAN**

Use this to interpret your lab report — match the contaminant to your result.

IF YOUR TEST SHOWS	WHAT IT MEANS	CONSIDER
<b>Bacteria detected</b>	<b>Immediate concern</b>	Shock chlorination; add UV system
<b>Arsenic &gt; 10 µg/L</b>	<b>EPA limit exceeded — chronic cancer risk</b>	Reverse osmosis or activated alumina filter

**WHO SHOULD USE THIS**

- Homeowners on private wells — not covered by public water testing
- Home buyers doing due diligence before closing
- Families with infants, elderly, or immunocompromised members
- Anyone who hasn't tested their well in the past 3 years
