YOUR TOP WATER QUALITY RISKS

| CONTAMINANT | HOW COMMON | RISK LEVEL | SOURCE & CONTEXT |
|----------------|----------------------------|---------------------|---------------------------------------------------------------------------------|
| Arsenic | ~67% of wells | High | Geological — Naturally dissolves from bedrock and glacial sediment |
| Iron* | ~33% above aesthetic limit | Moderate | Geological — Common in glacial and alluvial aquifers; staining and taste |
| PFOS | ~25% above limit | High | Industrial — Firefighting foam and industrial discharge |
| Lead | ~75% of wells | Low-Moderate | Infrastructure — Older well casing materials and household plumbing |
| Nitrite | ~67% of wells | Low-Moderate | |

* Secondary standard — an aesthetic limit for taste, odor, or staining. Not a health-based EPA limit.

WHAT TO DO NEXT

- Order a water test.**
Test for Arsenic, Iron, PFOS, Lead, coliform bacteria. Bacteria annually; others every 3–5 years.
- Get your free county report.**
See full data, treatment options, and certified labs at <https://yourwaterreport.com/states/nc/northampton-county/>
- Upload your lab results.**
We'll interpret them, flag anything above limits, and recommend next steps — free.

WHAT YOUR RESULTS MEAN

Use this to interpret your lab report — match the contaminant to your result.

| IF YOUR TEST SHOWS | WHAT IT MEANS | CONSIDER |
|-----------------------------|-------------------------------------------------|---------------------------------------------|
| Bacteria detected | Immediate concern | Shock chlorination; add UV system |
| Arsenic > 10 µg/L | EPA limit exceeded — chronic cancer risk | Reverse osmosis or activated alumina filter |
| Iron > 0.3 mg/L | Staining, taste — aesthetic issue | Oxidizing iron filter |
| PFOS detected | Health advisory level | Reverse osmosis filter |
| Lead > 15 µg/L | EPA action level exceeded | RO filter; inspect well casing |

WHO SHOULD USE THIS

- Homeowners on private wells — not covered by public water testing
- Home buyers doing due diligence before closing
- Families with infants, elderly, or immunocompromised members
- Anyone who hasn't tested their well in the past 3 years
