

Rock County has a moderate risk profile. Lead exceeds recommended limits in approximately 29% of tested wells, driven by infrastructure sources. Contamination is often invisible — testing is the only way to confirm your well's safety.

OVERALL RISK LEVEL

YOUR TOP WATER QUALITY RISKS

CONTAMINANT	HOW COMMON	RISK LEVEL	SOURCE & CONTEXT
Lead	~29% above limit	High	Infrastructure — Older well casing materials and household plumbing
Fluoride	~75% of wells	Low–Moderate	Geological — Naturally elevated in some deep or volcanic aquifers
Sulfate*	~50% of wells	Low–Moderate	Geological — Natural dissolution from gypsum and sulfate minerals
Chloride*	~94% of wells	Low–Moderate	Road/Geological — Road salt application and natural mineral deposits
Uranium	~100% of wells	Low–Moderate	Geological — Naturally occurring in granitic and sedimentary bedrock

* Secondary standard — an aesthetic limit for taste, odor, or staining. Not a health-based EPA limit.

WHAT TO DO NEXT

- Order a water test.**
Test for Lead, Fluoride, Sulfate, Chloride, coliform bacteria. Bacteria annually; others every 3–5 years.
- Get your free county report.**
See full data, treatment options, and certified labs at <https://yourwaterreport.com/states/wi/rock-county/>
- Upload your lab results.**
We'll interpret them, flag anything above limits, and recommend next steps — free.

KNOW YOUR WELL

Well age / year drilled _____

Last water test date _____

Treatment systems installed _____

Well driller / service contact _____

WHAT YOUR RESULTS MEAN

Use this to interpret your lab report — match the contaminant to your result.

IF YOUR TEST SHOWS	WHAT IT MEANS	CONSIDER
Bacteria detected	Immediate concern	Shock chlorination; add UV system
Lead > 15 µg/L	EPA action level exceeded	RO filter; inspect well casing
Fluoride > 4 mg/L	EPA limit exceeded — skeletal risk	RO filter or activated alumina
Uranium > 30 µg/L	EPA limit exceeded — kidney risk	Reverse osmosis or ion exchange

WHO SHOULD USE THIS

- Homeowners on private wells — not covered by public water testing
- Home buyers doing due diligence before closing
- Families with infants, elderly, or immunocompromised members
- Anyone who hasn't tested their well in the past 3 years
